

# readyset**tech**

Get going with our set price technology packages designed to make life a whole lot easier.

Select from our popular 'NERD VALUE' everyday basics, or spec things up to 'THE WORKS' for the ultimate in home user technology. You know what to expect and what it will cost with Need A Nerd - your technology partner.

## NERD VALUE

## THE WORKS

### Virus Removal

#### VIRUS REMOVAL – \$149

Kick infections to the curb with our popular set price service. We'll remove viruses, malware, and spyware infections from your computer so it runs like it should again!

nerdrecommended ✓

ADD

#### ESET PROTECTION

+ \$85.00 for first timers  
+ \$60.00 for qualifying upgraders

Kill even the most stubborn cyber bugs with anti-malware that scans, detects & removes viruses, creating a safe and hassle free online experience.

### Back Ups

#### BACK UPS – \$99

Keep data and photos safe with a robust storage regime that fits your technology needs.

Supply your own backup drive and we install it, do your first backup and ensure you're all up and running for the future.

ADD

#### WE SUPPLY THE HARD DRIVE - \$99

We'll supply you with a portable hard drive with plenty of storage space (500GB).

nerdrecommended ✓

#### BACKUP TO THE CLOUD From \$29 per month

Want something more tailored and stored in the cloud? Keep your data safe and fully managed by us. Gets you comprehensive data storage and complete peace of mind for your digital world. Data is unlimited so you choose how much to store.

### Assessment

#### ASSESSMENT – \$69

Dropped your computer or spilt water all over it? Worried about open ended repair costs? Don't worry, our set price assessments mean we check out what's wrong and prepare a quote based on what's needed at a set assessment fee. We'll even provide you with a letter for your insurer if you need it!

ADD

#### A FREEBIE

If you decide to proceed with a repair or replacement, we'll waive the assessment fee!

### Computer Set up

#### COMPUTER SET UP – \$199

Purchased a new computer and need it set up, synced with other devices or simply be shown how to use it to the optimum? Our flat fee set up service is an easy way to get your system installed, transfer files, and have you online & email ready, while training you in any tips for happy computing.
